From the Organizer's Desk

Smt. B. BHARATHI REDDY
TRUSTEE & CEO
VIJAYA GROUP OF HOSPITALS,
VADAPALANI, CHENNAI

Parkinsons Disease is one of the major degenerative neurological disorders significantly affecting the quality of life. The various therapeutic options include oral medications, Continuous Dopaminergic Therapies and Surgical options. However, till now in Indian context, there was a huge void in Continuous Dopaminergic Therapies. In this context, Vijaya Group of Hospitals are happy to invite you to the First CME on "Continuous Dopaminergic Stimulation for Parkinsons Disease" at the crux of availability of the same in India. We are excited to have world renowned International and National experts to enlighten us on Apomorphine Injections and Pumps and its implications on Indian population.

Prof. SURESH KUMAR
